

Courtroom to Classroom Flat Judge Project

Grades K-5

The Supreme Court of Pennsylvania Historical Commission is excited to announce a statewide series of student contests designed to spark curiosity, creativity, and deeper understanding of the judicial branch of government. This initiative invites students to explore the work, role, and impact of the courts through a variety of fun and educational activities. Let's celebrate our courts and the rule of law – and inspire the next generation of informed citizens and leaders!

Modeled after the adventures of Flat Stanley, the Flat Judge is just waiting for your children or students to take him or her on adventures you create as you learn more about the courts in your community, the role of judges, and how they enforce laws. Decorate your judge and take pictures of it anywhere you think a judge might go, or mail to friends and family and have them send you pictures!

Post your pictures online by tagging @PACourts on X or @pennsylvaniacourts on Instagram
